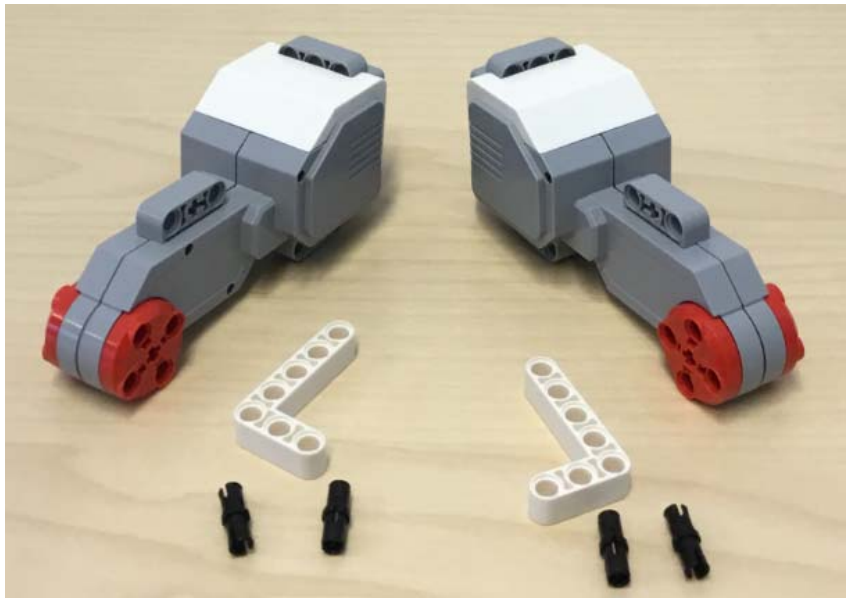
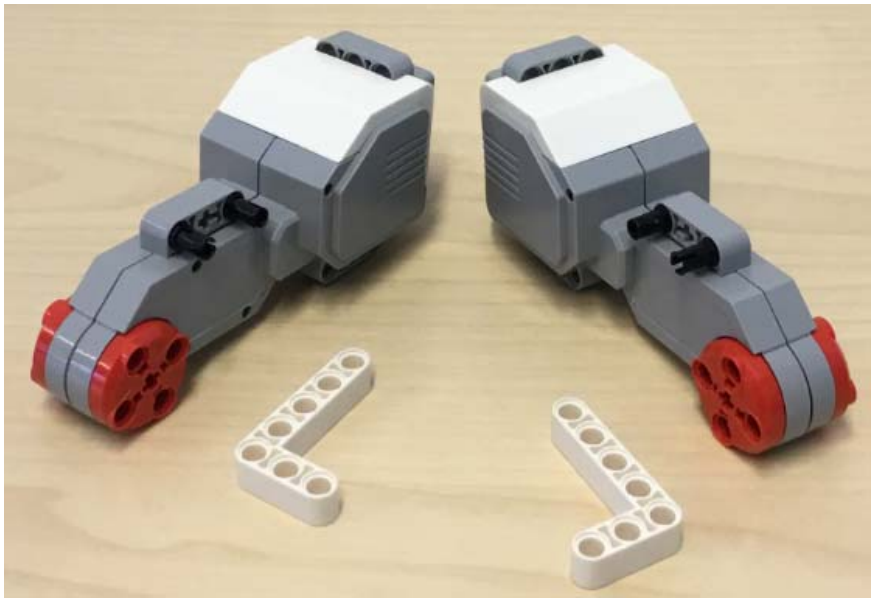
Tässä on kaikki tarvittavat osat robotin alustan rakentamista varten.

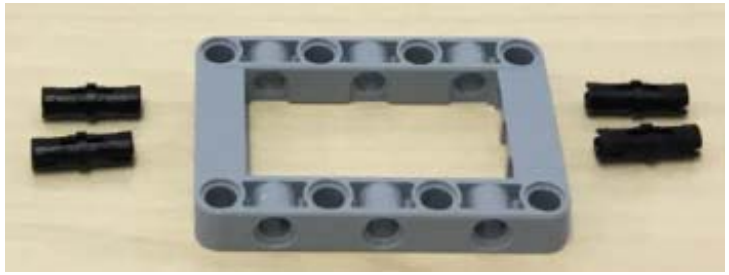
Aloitetaan renkaista.

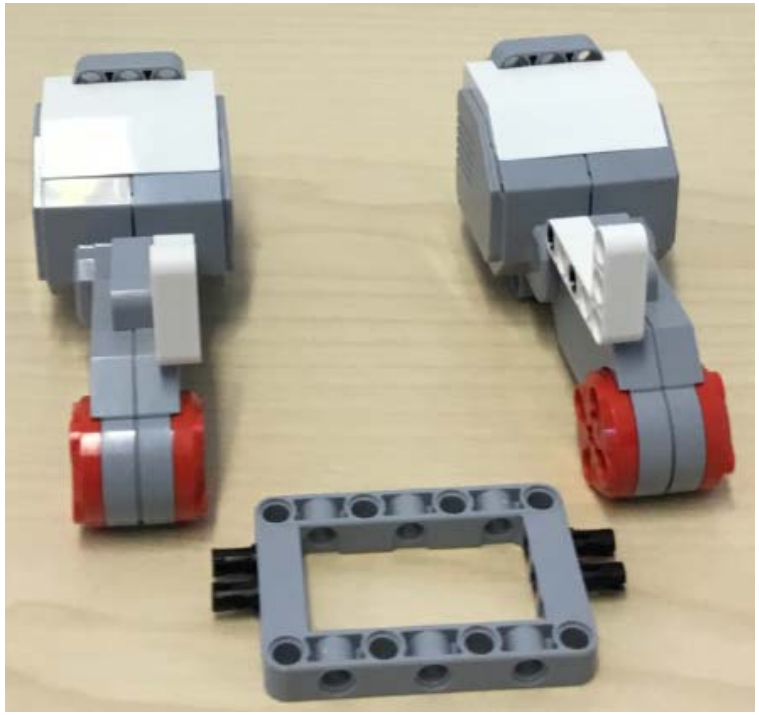
Tehdään moottoreille kiinnikkeet.

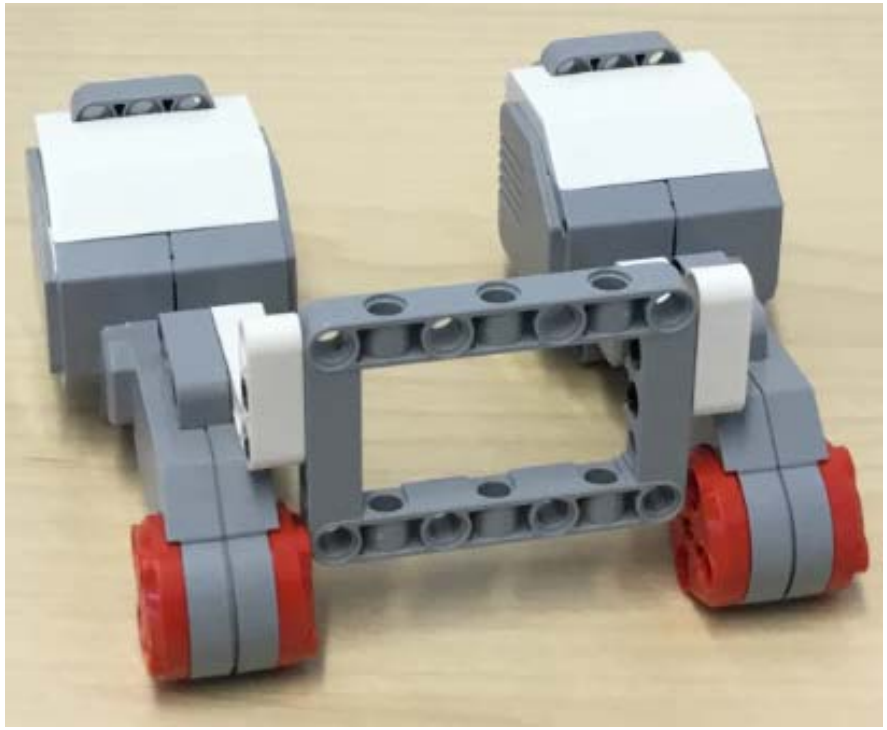




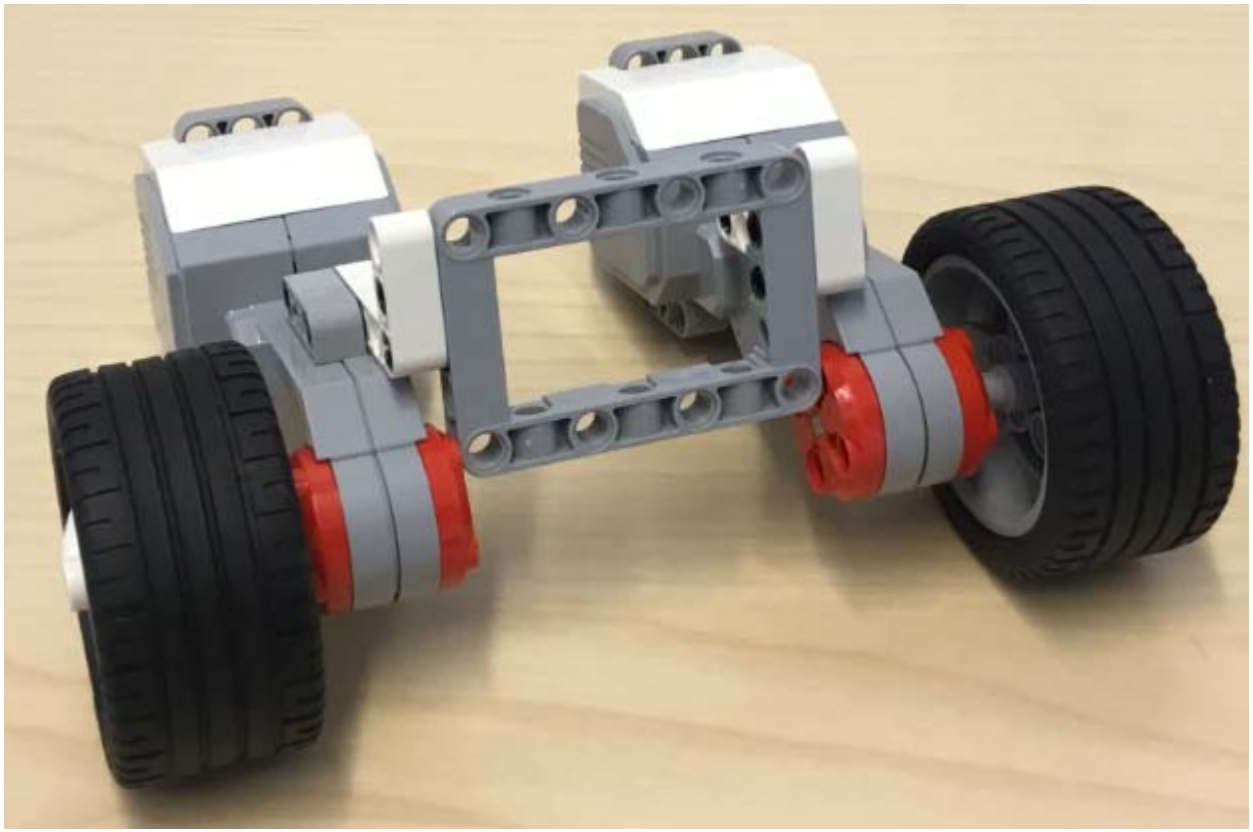
Kiinnitetään moottorit toisiinsa.



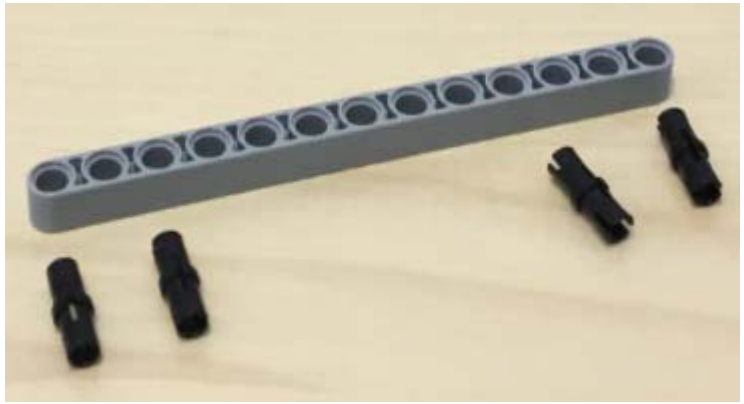


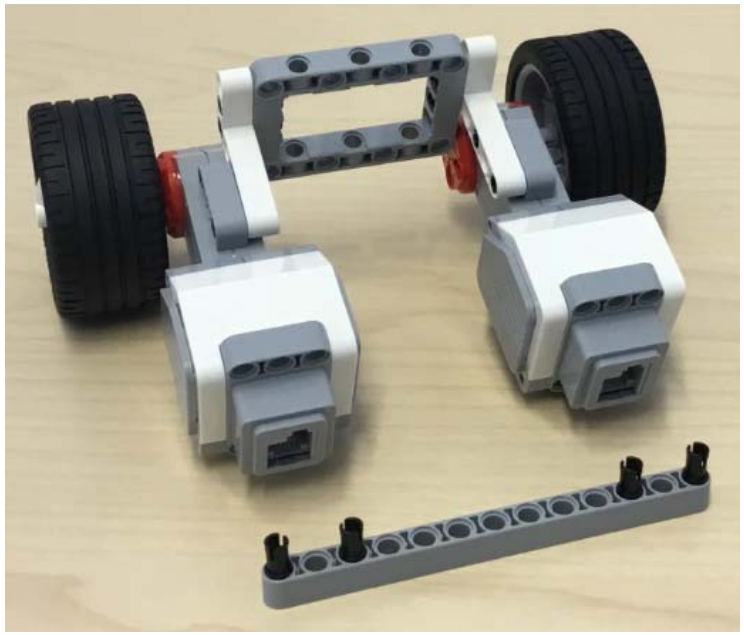


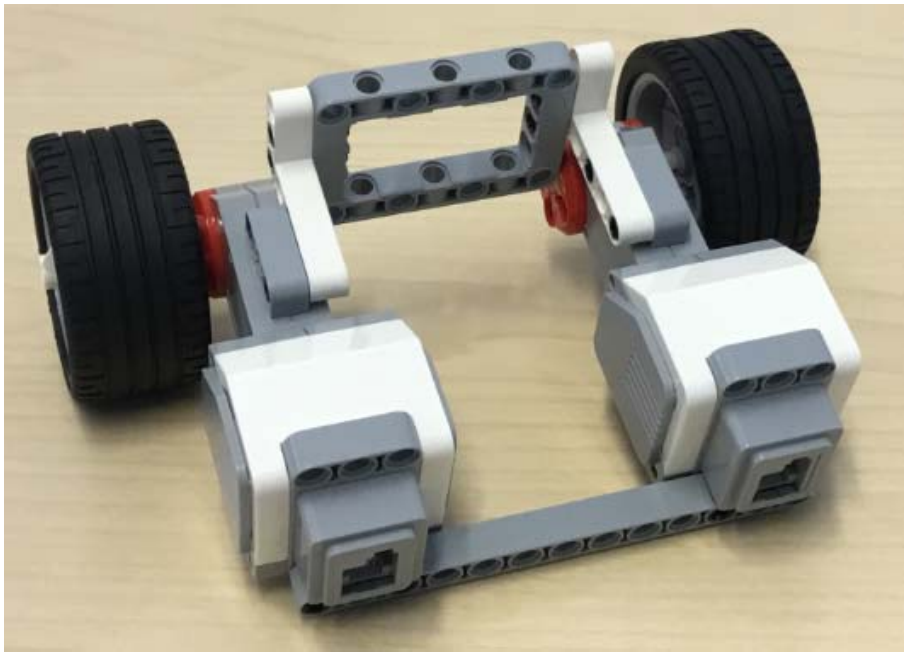
Kiinnitetään moottoreihin renkaat.



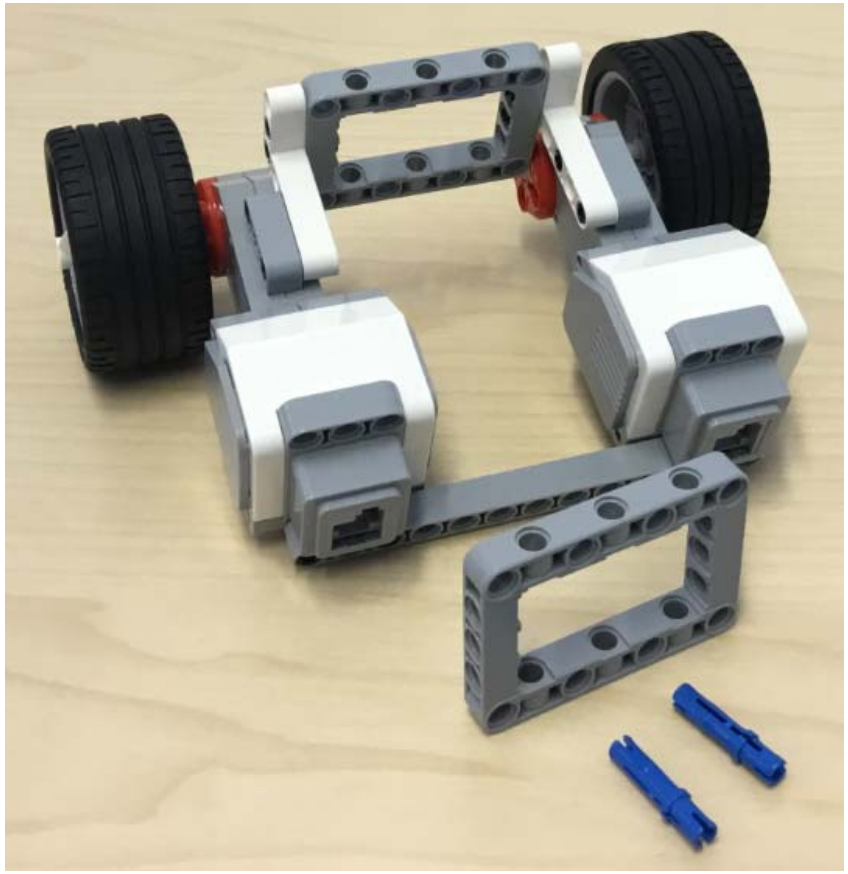
Kiinnitetään moottorit toisiinsa myös toiselta puolelta.

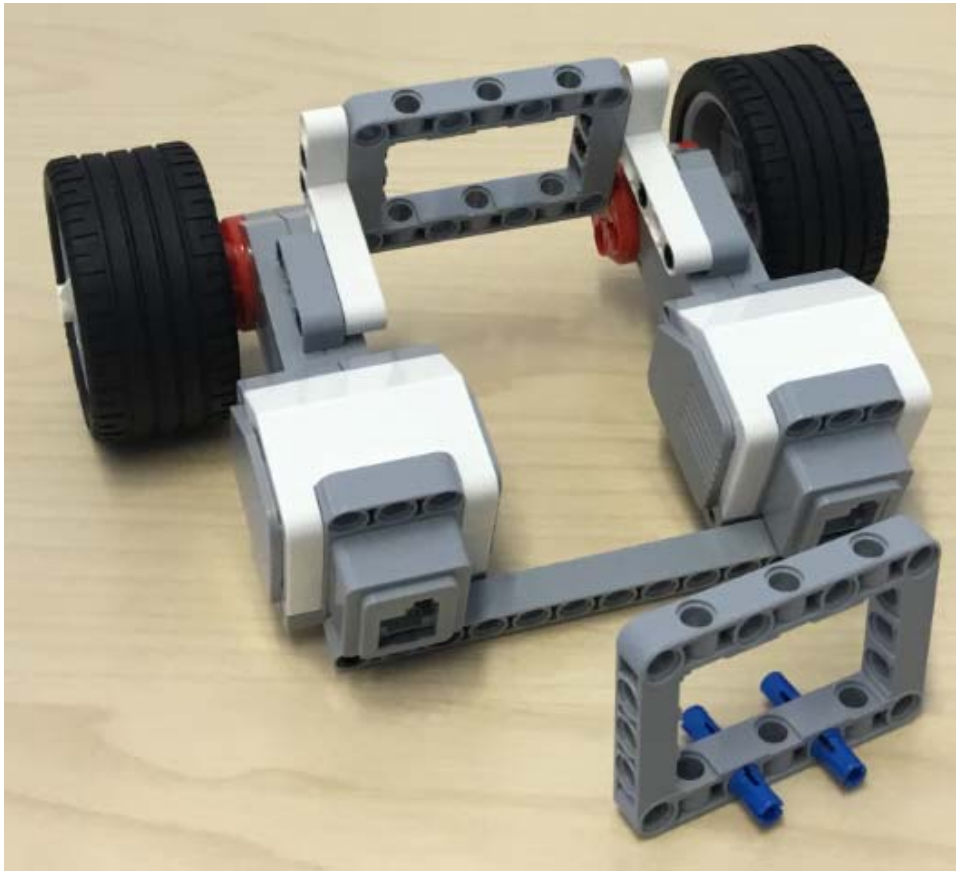




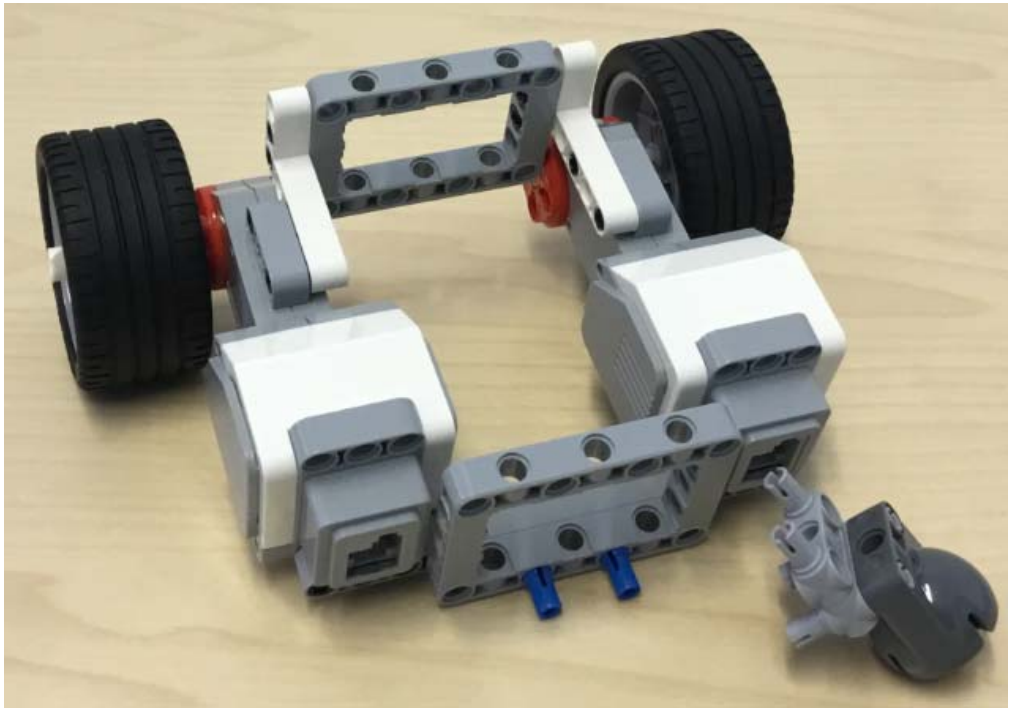


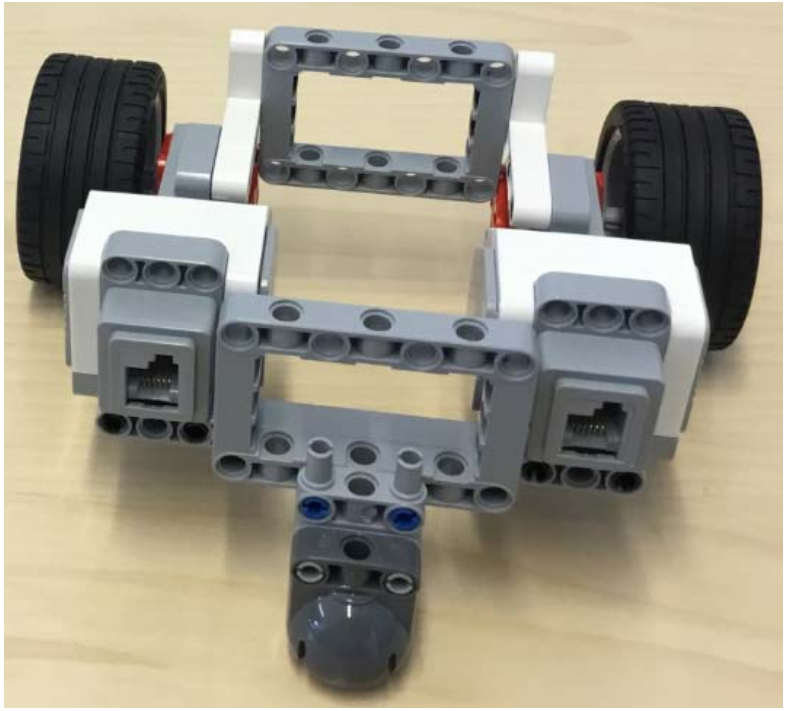
Lisätään tukirakenne.



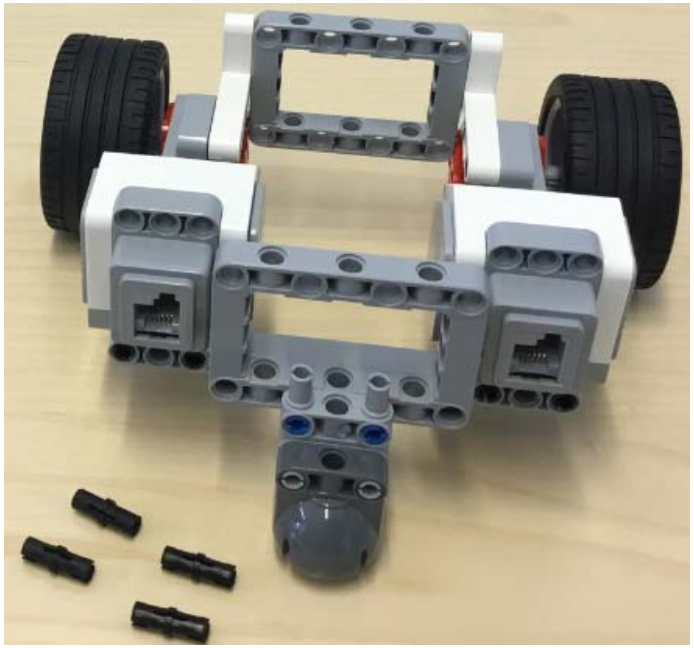


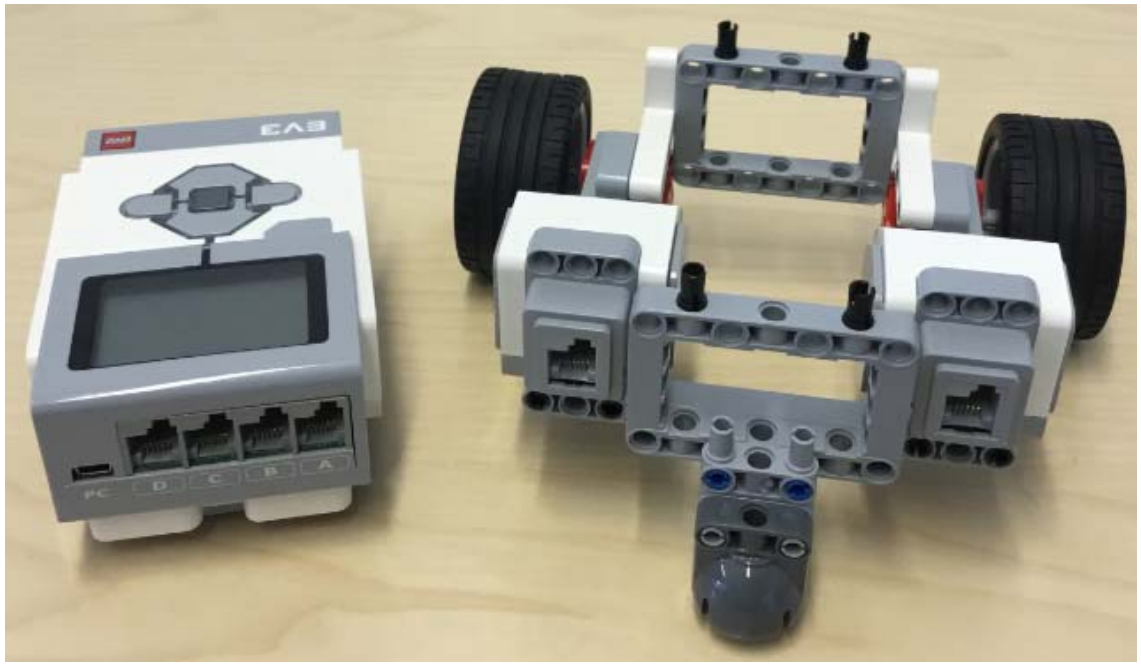
Lisätään alustaan kolmas rengas.

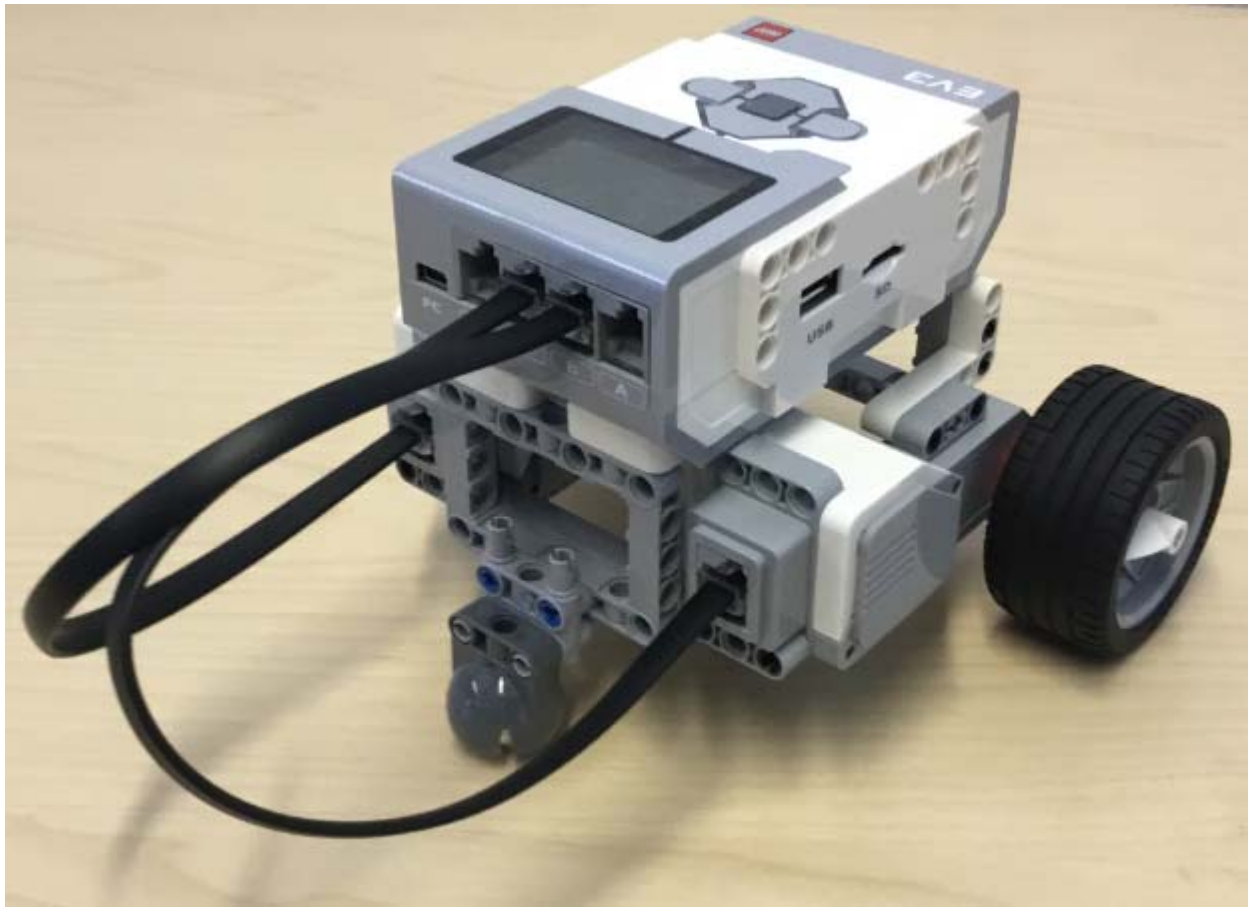




Tehdään kiinnitys ohjainyksikölle eli ”Brickille” ja kiinnitetään se alustalle.







Kiinnitetään lopuksi moottorit ohjainyksikön eli ”Brickin” B ja C portteihin (huomaa, että johdot menevät ristiin!)
